Government divisions of labor are always interesting. Thank you to you/staff for figuring that out, and I appreciate the update!

Turns out we had to submit to several different entities.

LADoT does most of them. 'Park and Pay' sign maintenance go to Meter Planning Section; "ROAD WORK AHEAD" construction sign removal went to Contract Administration Section; and RAP park closure signs.

Dear Taylor:

As discussed, we have cleaned (removed graffiti and stickers, and substantial defacement) from traffic signs throughout the BID to improv-

e

safety in the area. Below is a list of signs we'd like LADOT to take a look at repairing or replacing. If there are any they are unable to address, please let us know so we can try to figure out how to address them. Thanks!

Hi Tara,

Good clarification. Yes, saturated would mean too covered in stickers and/or graffiti.

I grouped the signs by location so the issue would apply to the whole

group. The edited version below and attached makes that more clear.

Please let me know if you'd like to see any other edits before we pass

this off to the City and DoT. Thanks!

And 2nd question...for those signs with no issue next to them...what is the issue? Also saturated/same as above?

Good Morning!

Paul was able to compile the attached list of signs that are saturated and/or loose in the district. I'm including the list below as well in case you'd like to forward this email directly.

Please let us know if you have any questions.

Thanks!
